To search for available shops, select a country, state or zip code above

To do a state wide search use the ‘search by state’ option. You’ll notice that it defaults to the state in which you reside according to your profile.

For a narrower search, which tends to be most effective, use the ‘search by zip’ option. This allows you to enter the number of miles you’re willing to travel from your chosen zip code.

Remember to hit the correct button out to the right to complete your search!

The results of your search will appear below the job board search criteria. The information will list the Due Date of each assignment, the name of the bank/credit union you will need to shop, and the location of the branch. At the end of each shop listed you’ll see a link for ‘map’, which will take you to Google maps to give you a visual representation of the location of the branch.

The More info link takes you to a new page with lots of information! At the top you’ll see details pertaining to the location; specifically the name of the bank, the address, city, and zip. As well as the phone number. Again you can use the Map link to obtain a visual on the location.

The second portion gives information about the restrictions of this shop. These usually refer to age restrictions, payment eligibility and lock-out periods.

Next are the start and due date of the shop. Be sure to check these carefully, as you'll need to make sure these dates work for you! The shop must be completed between these two dates.

The following section is of importance to every shopper! It shows the payment amount being offered for the completion of the shop. Pinnacle does not usually pay expenses, but remember that combining shops can help make further away shops worthwhile!
